CAPABILITY STATEMENT

Kaytics, established in 2016, is a U.S.-based data analytics and AI solutions provider dedicated to helping government agencies and mission-driven organizations transform data into decisions. We specialize in applying advanced analytics, machine learning, and AI-powered automation to deliver clear, actionable intelligence from complex and fragmented data environments.

CORE COMPETENCIES

- AI & ML Learning Enablement
- Low-Code/No-Code Implementation
- Simulation & Optimization
- Customized Software Development
- BI Transformation
- Cloud & Storage Solutions
- Data Governance & Compliance
- ETL & Data Integration

PAST EXPERIENCE

At Kaytics, we have worked with small, medium, and large corporations, helping them leverage data and AI to solve complex business challenges. Our past experience spans diverse industries and is strengthened by strategic partnerships with industry leaders such as OpenAI, Google Cloud, Databricks, and Snowflake. These partnerships enable us to deliver scalable, intelligent systems that drive both operational efficiency and marketing performance. By combining proven expertise with advanced technology, we ensure every solution is tailored to our clients' unique objectives and long-term growth.
